Daybeds and Benches

Described covetously by The New York Times as a “solitary indulgence,” the BassamFellows Daybed is more than a piece of furniture - it’s an obsession. While a sofa is made to accommodate multiple parties, the Daybed is made for one alone—an experience that elevates the mundane to the glamorous. It is the ultimate expression of sensual luxury. The Daybed occupies a deservedly distinguished place in the history of furniture design and over the years it has become an important modernist staple. The BassamFellows Daybed is an evolution of that tradition with a solid wood frame constructed by expert cabinetmakers and an ‘achingly soft’ leather cushion. Hand sewn from four separate panels of leather, each cushion is padded with all-natural down filling for softness and edge-banded foam for sharpness. A separate headrest cushion is detachable and an oxidized brass support mechanism adjusts to three different positions.
